(For those students admitted during the Academic year 2021 – 2022 and after)

VISION

To meet the growing global needs by educating students to excel in botany with a human touch.

MISSION

The mission is to give very good learning experience in understanding basics of botany and lab techniques with professional excellence and also produce academically proficient, professionally competent and socially responsible graduates in Botany.

ABOUT THE PROGRAMME

Botany is the subset of biology that specifically focuses on plants which are correspondingly the reservoir of novel natural products. Many of the natural products that they produce are useful to humans. Besides foodstuff, plants are the resources for other human requirement like medicines, papers, furniture, fabrics, etc. Therefore the study of plants is very significant for sustainable life. The visionaries of the college are met with the requirements of this peculiar subject in the higher educational institutions. Thus evergreen Botany department has come into existence in Vivekananda College.

The Botany Department started in the year 1982 with UG & Allied Botany. Since the beginning of the course the faculty members are experts in the fields of Botany viz. Mycology, Herbal Botany, Biotechnology, Microbiology, Tissue culture, etc.

In order to create job opportunities and entrepreneurs moreover smart soft skills to the students, two separate well equipped microbiology and tissue culture laboratories with sufficient chemicals and sophisticated instruments such as *Students microscope, Binocular microscope, Laminar Air Flow, tissue/bacterial Culture chambers, Autoclave, Environmental shaker with incubator, Hot air oven, Colorimeter, pH meter, Digital balance, Smart class rooms, etc.* The department has sound stock of herbarium and collection of digital resources for teaching and learning process. The department library facilitates the students to locate their reference materials. Till date, the library has nearly **2220** books with national & international standard. The learners get opportunities such as field visits and industrial trips to enrich their knowledge and meet their urge in this competitive learning environment.

The department provides zoology and chemistry as allied subjects. Undergraduate students have Non Major Elective courses in their programme. Apart from the core curriculum, the department also offers a number of extra certificate courses such as Horticulture and Medicinal Botany, etc.

Under the shadow of Swamy Botanical Association (SBA), students meet, expert lectures and various other student development programmes has been benefitted for the students. Several experts from national/regional institutions have frequently visit and deliver

lectures on inevitable topics in the emerging fields of Botany and interdisciplinary streams. SBA, an association of students, is also functioning with following objectives:

- To maintain Herbal and Ornamental garden in the College Campus
- To train the students to prepare herbal formulations
- To exhibit the details of all flora in college campus

Prof S. RAJARAM served the dept. as founder HOD for the longest term (35 years) and retired in the year 2013. Prof G.SENTHILKUMAR rendered his service as Associate Professor for nearly three decades and retired in the year 2014. Dr P.T. MANOHARAN had elected to Madurai Kamaraj University as Academic Council, Senate and Syndicate Member and worked as an Additional Controller of Examination in DDE, MKU, earned name and fame to our Department and to the institution. Both Dr P.T. MANOHARAN and Dr. N. LAKSHMANAN were recognized supervisors for guiding PhD scholars and retired in the year 2016 and 2019 respectively. Dr. V. RAMESH, received Summer Research Fellowship from Indian Academies of Sciences viz. INSA, IASc and NASI, received Lecture workshop grant worth of Rs.149,000/- from Indian Academies of Sciences viz. INSA, IASc and NASI, and Best Young Faculty Award by Novel Research Academy. Recently he has selected for Young Scientist Fellowship from TNSCST, Chennai during the academic year of 2019-2020. The faculty members are contributing to the academic field by editing journals & Books. They have been on the editorial boards and acted as referees in the academic journals.

The under graduate programme of Botany was started in the year 1982 with allied botany. Nearly 30 to 40 students were studying every academic year. This programme includes (a) Part I Tamil & Sanskrit (which can be chosen by the interest of the students) and Part II English (b) Core courses include Elective and Allied (c) Skill based courses (d) Value Education (e) Environmental studies and (f) Non Major Elective also. No course shall carry more than 5 credits. The student shall select any one of the Choice-based credit courses have offered by the department through their interest on studies.

The programme contains 43 courses in six semesters. The total credit of the programme is 140. The programme contains 3 core elective courses, allied courses and skill based courses from the relevant subjects for complementing the core of study. There should be 4 common courses that include the first and second language besides an environmental study and an extension activities course.
